Mitsubishi Accessories

For the adventurer, the family of travellers or the hardworking tradie - whoever you may be, ARB will be there every step of your journey, offering you the highest calibre 4x4 accessories on the market.

With an unrelenting commitment to innovation and engineering excellence, an extensive network of retail outlets and workshops around the country and exceptional aftersales support, you can be assured you're getting quality products, reliable service and sound advice.

Protection Equipment

OUR PROTECTION GEAR HAS BEEN DESIGNED FOR MAXIMUM STRENGTH, STYLE AND PRACTICALITY.

Vehicle protection is one of the main priorities for owners of four wheel drives and commercial vehicles. Bull bars, rear bars and side rails and steps will help prevent expensive panel damage, especially when heading off road, as well as providing a solid base on which to mount a range of accessories like winches, driving lights and antennas. Like all of our products, our protection gear has been designed for maximum strength, style and practicality.

Summit Bull Bar

Built on ARB's tradition of pioneering innovation and bringing a fresh, contemporary design for modern day vehicles, the ARB Summit bull bar uses press forming technology and incorporates a larger tube diameter to deliver the ultimate in strength and aesthetics. Compatible with the latest vehicle safety systems and encompassing a range of practical features including provision

for driving lights, communication antennas and electric winch models, as well as protection against corrosion, the ARB Summit bull bar represents the pinnacle in frontal protection. The Summit bull bar comes standard in a hardwearing black powder coat finish, with the option to colour code.

→ Available for Triton and Pajero Sport

Alloy Bull Bar

The ARB Alloy bull bar offers yet another choice for frontal protection. With styling elements designed to complement modern four wheel drive vehicles, the bar is manufactured from lightweight and corrosion resistant alloys, with a steel substructure and mounting system for maximum strength.

Like all other ARB bars, the Alloy bull bar utilises renowned manufacturing processes throughout, ensuring strength and durability, and includes provision for driving lights, communication antennas and electric winches.

→ Available for Triton

Commercial Bull Bar

Favoured by government and fleet operators, the Commercial bull bar uses a simplified manufacturing process to achieve cost-effective vehicle protection without some of the more aesthetic features. Incorporating a range of

practical features, the Commercial bull bar provides a solid platform on which to add a range of accessories including electric winches, auxiliary driving lights, communication antennas and safety flags.

→ Available for Triton

SmartBar

Manufactured from polyethylene plastic, the SmartBar is a lighter alternative to steel bars and is a popular choice amongst fleet and emergency service operators.

Available in a variety of colours, depending on the vehicle, the SmartBar is environmentally friendly and easy to install. The SmartBar range is air bag compatible and has provisions for driving lights and winches.

→ Available for Triton and Pajero Sport

Summit Rear Step Tow Bar

Providing both maximum towing capacity and increased rear end protection on and off road, the Summit rear step tow bar combines class-leading design, proven ARB engineering and a no compromise approach to protection and performance. Built around a tubular steel subframe, the Summit rear step tow bar includes an integrated tow hitch, provisions for an ARB air compressor outlet, trailer camera wiring, 50 amp Anderson plug and trailer plug wiring.

With press forming used throughout for increased strength, the Summit rear step tow bar is ready for the most demanding off road use.

→ Available for Triton

Summit Side Rails and Steps

ARB offers side rails and steps specifically designed to protect your doors, side sills and front quarter panels from damage off road, as well as aiding access to and from the vehicle.

ARB's modern Summit side rails and steps have been designed to incorporate a sleek extruded aluminium step section and an integrated clamp system for bull bar attachment. For those not requiring side rails, a standalone step can be fitted.

→ Available for Triton

Under Vehicle Protection

When travelling off road, the underbody of your vehicle is very susceptible to damage. ARB's under vehicle protection systems are designed to protect these vulnerable areas from rocks, logs and ruts, which can often be encountered in more challenging terrain.

Features

- Vehicle specific design
- Pressed and folded 3mm laser cut steel, providing more strength than folded steel alone and increasing the strength to weight ratio
- Protection panels are zinc plated and powder coated in a silver textured finish
- Recessed mounting bolts are protected and easy to remove for vehicle servicing
- Compatible with all ARB products
- Steel components are protected with either powder coat or zinc plating

Recovery Points

It is important to have strong, reliable recovery points when travelling off road. ARB has sought to set an industry benchmark for how recovery points are designed, tested and selected by 4WDers. Each vehicle specific recovery point undergoes considerable research and design, and is rated for use with a 4.75t rated

bow shackle and an 8000kg snatch strap. Manufactured from steel plate, ARB's recovery points are rated for angled recovery and use vehicle specific mounting systems to ensure the fitment does not affect air bag deployment or the crash pulse of the vehicle.

Ascent Canopy

ARB's Ascent canopy features the latest in design, technology and functionality while providing extra storage and added security and protection for belongings during on and off road travel. Designed, engineered and assembled in Australia, the Ascent canopy has gone through a rigorous testing regime to ensure it can handle the harshest of conditions.

→ Available for Triton

Features

- High flow canopy vent comes as standard on the Ascent range, pressurising the canopy to aid in inhibiting dust ingress
- Frameless, tinted and tempered safety glass used for exterior windows
- Stylish and functional interior design with maximum space and concealment of fasteners and wiring looms, where possible
- An electronic unlatching system and slam shut latches on the side and rear windows allow for one-handed operation
- Over-rail design which blends the canopy to the vehicle resulting in no visible seal
- LED interior light
- Rear spoiler which incorporates an LED brake light
- Anti-entrapment dial, which allows the rear window to be locked or unlocked from within the canopy
- Plug and play wiring harness allows for keyless entry and remote central locking
- Internal, low intrusion support frames utilised for roof rack and roof bar fitment

Classic and Classic Plus Canopies

ARB's Classic canopy has stood the test of time, offering unrivalled quality, practicality and affordability, making it the perfect solution to increase the space and security of a utility vehicle. The Classic canopy can be tailored to suit different requirements and has an extensive range of accessories to complement it.

→ Available for Triton

Features

- Weatherproof exterior, with a UV-rated finish
- Central locking rear window offers added security for belongings stored in the canopy (Classic Plus only)
- Sliding or lift up side windows available
- Internal halogen light
- LED brake light
- Smooth, inert materials are used in the interior making it easy to clean
- Side and rear windows are manufactured with factory tinted and tempered safety glass
- The lift up side and rear windows operate via gas struts to assist with opening and closing
- Available in a smooth or textured finish (Classic Plus available in smooth only)
- Optional accessories for the Classic canopy include; security mesh for sliding windows, high flow canopy vent and lift up side windows

Ute liners

Suitable for all ARB canopies, ARB Sportguards and ute liners protect the ute tub from scratches, dents and corrosion as well as common spills that might occur.

→ Available for Triton

Ute liner

ARB ute liners protect the ute tub from scratches, dents and corrosion. The one piece design is vacuum formed to the exact shape of the tub, is UV stable and helps prevent load movement.

Sportguard

ARB's Sportguard utilises a simple snap fit, 5 piece design, which can easily be installed in separate sections with no drilling required and retains factory tie down points. The anti-slip floor is a standout feature and the contoured design maximises tub space.

Roof Racks and Roof Bars

A roof rack is a valuable and versatile accessory for many touring and trade vehicles, and without one some trips would just not be possible. It's the obvious place for lightweight, bulky items that are difficult to fit in the cabin of the vehicle. And with additional accessories now available, such as waterproof bags, you don't have to worry about your gear being exposed to the elements while travelling.

ARB manufactures both steel and aluminum roof racks to suit a wide range of vehicle types, covering both recreation and commercial applications:

- Canopy roof racks and roof bars (Triton only)
- Trade roof racks (Triton only)
- Deluxe roof racks (Triton only)

Additionally, ARB also stocks Thule and Rhino roof bars and accessories to suit most popular 4WDs, 2WDs and SUVs.

→ Available for Triton and Pajero Sport

Old Man Emu

Old Man Emu has been the choice of suspension for 4WDers for many years due to the outstanding ride performance it delivers over all road surfaces. Integrated suspension

packages are available to improve ride, handling and load carrying ability no matter what your requirements may be.

Nitrocharger Sport

Nitrocharger Sport shock absorbers are an integral part of Old Man Emu's suspension systems, providing a noticeable improvement every time the vehicle is driven. Built in Australia and trusted by 4WDers throughout the world, OME Nitrocharger Sport shock absorbers set the standard in fine tuning and ride comfort in any terrain, and simply outperform the competition.

Springs

Old Man Emu designs a range of coil and leaf springs, enabling the installer to match the most appropriate springs to the intended application. While ride height increases are attained, an emphasis is placed on ride control improvements.

Further fine tuning is achieved when the springs are matched to a corresponding set of Old Man Emu shock absorbers, delivering a fully integrated system, designed specifically to suit your vehicle.

Hardware

Complete suspension integration is possible with Old Man Emu's range of hardware and accessories such as greaseable shackles, bushes and steering stabilisers.

→ Available for Triton

Frontier Tank

The Frontier tank for the Mitsubishi Triton suits models 2015 on and is available in a 120L diesel tank.

The ARB Frontier diesel tank is a lighter alternative to steel tanks and its one-piece design utilises existing vehicle mounting points. Manufactured from a resilient, impact resistant, cross-linked polymer, each Frontier tank offers strength and rigidity and the UV stable plastic ensures these tanks will not rust or corrode.

* Pajero Sport tank under development

Other Accessories

Air Locker

Designed and manufactured in Australia, ARB Air Lockers provide increased traction at the flick of a switch, whether it's rock, clay, sand, snow or mud. With a state-of-the-art two-piece design and an uncompromising approach to manufacturing, Air Lockers are distributed in over 100 countries worldwide and are the most trusted locking differential on the market.

Fridge Freezers

Developed specifically for off road use, ARB's range of fridge freezers offer uncompromising performance, making them the perfect companion for off road travel, giving you the convenience of cold food and drinks, with rapid cool down and low power consumption. The range comes in four convenient sizes (35L, 47L, 60L, 78L), as well as the 60L Elements weatherproof fridge freezer.

Recovery Equipment

When travelling off road, reliable and durable recovery equipment is paramount. ARB offers a large range of recovery gear that will help get your vehicle out of any sticky situation. The range includes snatch straps, recovery kits, tree trunk protectors, and cable dampers. ARB also supplies a range of electric winches and Hi-Lift jacks.

Intensity LED Driving Lights

Engineered in Australia and manufactured in the USA, ARB's Intensity LED driving lights have been designed and manufactured to specifically meet the demands of 4WDers around the world. Submersible to 3m and vibration tested to military specifications, Intensity LED driving lights are available in traditional round sizes (AR21 & AR32) for standard bull bar mounting, or as a light bar (AR40) for a unique integrated low profile mount, suitable for both bull bars and roof racks. Spot, flood and combination beam patterns are available (model dependent).

IPF Lights

To cater for the different lighting requirements of 4WDers all over the world, ARB distributes a range of IPF driving and fog lights, in addition to a large range of replacement headlamp bulbs.

Reversing Camera Systems

ARB's range of reversing cameras and monitor systems offer exceptional reversing visibility and help to extend the driver's vision to the rear, side, roof or front of the vehicle. Designed with flexibility and superior performance in mind, there is a multitude of options to suit every individual, providing all round safety.

Other Accessories

Air Compressors

ARB air compressors are available in both portable and vehicle mounted kits, and offer many advantages when exploring the great outdoors, such as inflating tyres and camping accessories, running air tools, activating Air Lockers, even reseating a tyre onto a wheel.

Outback Solutions Drawers

Modular in design for user customisation, Outback Solutions drawers can maximise the versatility of your vehicle's cargo space by being configured with fridge roller drawers, roller floors or stackable drawers. Manufactured from galvanised stainless steel with sealed roller bearings and commercial grade carpet for durability.

Safari Snorkels

A Safari snorkel helps protect your vehicle's engine from dust, snow and water ingestion, ensuring clean, dry air is always available, no matter what the circumstance. Manufactured in Australia from polyethylene, the Safari snorkel is UV stable and can handle the toughest of conditions.

Dual Battery Kit

Perfect for powering additional accessories without running the risk of flattening the main battery and to give you peace of mind in the event of a main battery failure, ARB has a range of dual battery kits to choose from.

Camping Accessories

ARB has a range of camping accessories to help you on your next weekend escape or off road adventure. Made from rugged and hardwearing materials and built for the great outdoors, the range was made to cope with the harshest of conditions. From swags and rooftop tents to chairs and general accessories, ARB has all your camping needs covered.
